

A Proven Approach To Reduce Litigation Costs.

Lexitas is a leading court reporting provider with innovative ways to...

- Eliminate unnecessary travel for attorneys, expert witnesses and deponents.
- Enable attorneys, claims professionals and corporate clients to view depositions easily during and after the event.
- Provide access to transcripts, exhibits and videos through a secure, web-based repository.
- Simplify the calendaring process for busy attorneys and paralegals.

Court reporting services through two client-focused options:

Traditional Depositions: High-quality court reporters and videographers will capture the full proceedings in person, manage the exhibits and ensure that clients get everything they need for their litigation.

Remote Depositions: Attorneys, deponents or other parties can connect through secure video streams using computers, videoconferencing or mobile devices. Lexitas' court reporter captures the full transcript.

Lexitas records and provides a free copy of any video streams. If requested, Lexitas can provide traditional videographers as well. In either case, Lexitas provides a copy of the video for free in its secure online repository.

Delighted clients nationwide

Law firms of all sizes trust Lexitas for their depositions and arbitrations. Their clients – corporations and insurance companies – enjoy great benefits in cost savings and more efficient litigation management.

For more information or to schedule a deposition, contact Lexitas at schedule@lexitasNG.com or 888.267.1200.

"This is a game changer for my firm and our clients. We're pleased to use it to improve our client services. We depend on high-quality court reporters; Lexitas' novel processes have proven to be far easier to use than traditional court reporting."
