### Trial Presentation Consulting

Winning trial attorneys know that a compelling presentation of relevant information – video clips, animations, photographs, charts, medical illustrations – often means the difference between persuading a jury and confusing them. We can help you before and during the trial.

Lexitas' skilled professionals apply a wide range of trial support services that increase the visual impact of your argument in the courtroom, helping you maximize your persuasiveness.

In addition, Lexitas' team provides equipment for war rooms and high end presentations including projectors, monitors, and computers. Our staff is well versed in assisting clients with the most effective techniques to take full advantage of this technology.

### Remote Trial Video Conferencing

If a critical witness is unavailable or prohibitively expensive to have in court, Lexitas offers a unique alternative that may be the deciding factor in your trial and will certainly save thousands of dollars.

Lexitas has connected expert witnesses from their homes and offices to courtrooms throughout the country using secure video conferencing and video streaming. With judicial approval, we have beamed subject matter experts into the courtroom to testify at jury and bench trials, in both civil and criminal matters.

Contact us to learn more about ways we can assist with your next trial.
